About Me

I am a developer who works collaboratively and creatively, with a strong understanding of Data Structures, Java, SQL, and Python. I have experience with numerous frontend and backend frameworks, such as Flutter, Supabase, and Firebase. My focus is on developing dynamic and responsive data analytics solutions with a passion for uncovering insights and trends from complex datasets. I am seeking hands-on experience with a team of professionals to further hone my skills and contribute to impactful data-driven projects.

Experience
